Studyladder 'Mathethon' Sponsorship Form

Fundraiser for _____ School

Student's Name: _____   Class: _____

All money raised goes to the school!!

The number of correct answers achieved (2 minute time period) _____

Amount owed is calculated by multiplying the student's score by the amount pledged. eg. 25 correct answers x 20c pledged for every correct response = $5 owed.

Note: As an indication most students average between 20 - 50 correct responses with only a few achieving over 100 correct responses in the 2 minutes time allocated.

Date	Name of Sponsor	Amount pledged (for every correct answer)	Amount Owed (calculated after the competition day)
	Total amount raised
