

How to add or link a student to your parent account

From your parent account homepage:

Select 'add/link student'

From the popup menu below:

Create a new account

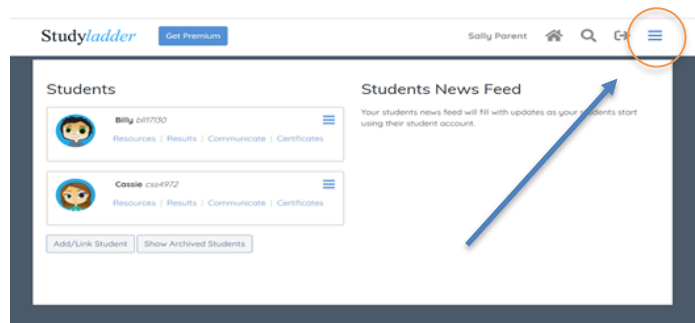

OR Link an existing account (eg a school issued student account)

- Select boy or girl
- Type in the child's name
- And select their year/grade
- Enter your child's username
- Enter their password

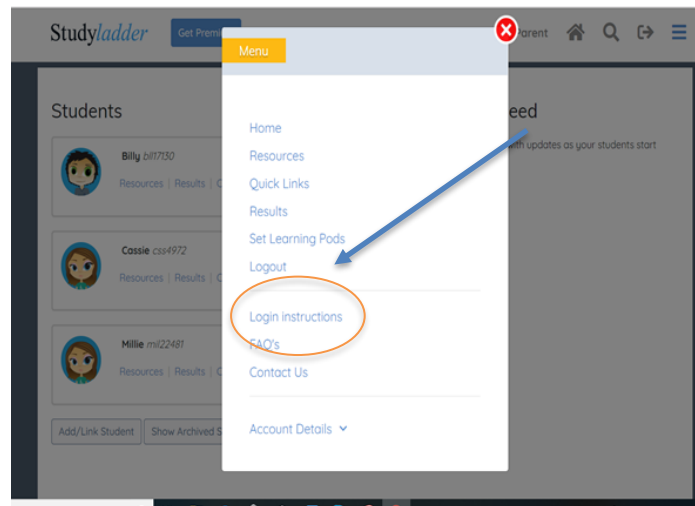

The 'Add a student' popup form is shown over the parent account homepage. It has two main sections: 'Create Account' and 'Link Account'. The 'Create Account' section has radio buttons for 'Boy' and 'Girl', a text field for the name 'Cassie', and a dropdown menu for 'Year 4/Green'. The 'Link Account' section has text fields for 'Username' and 'Password'. Two blue arrows point from the text instructions above to the 'Girl' radio button and the 'Year 4/Green' dropdown menu.

If you have created a NEW student account

Go to your home menu so you can find their new username and password

Select 'login instructions'

You will see notes on how your child can login along with their username and password
